

To: Glen Rock Soccer Club Divisions 2, 3 & 4 Coaches

From: Jim Brogan, Equipment Manager

Date: September 6, 2007

Re: Travel team equipment

The equipment for **home** games at Wilde Memorial, Faber and the High School this season will reside in bins located behind my garage at 27 Highland Road (between Rock & Harristown just west of Ackerman). If you have any questions or equipment needs please feel free to contact me at (201) 264-0283 or brogansjm@verizon.net.

Corner Flags: a coach from the early game at each field will need to pick up a set of 4 flags from my house. If there is a late game scheduled at that field the late game coach is responsible for returning the flags to the bin. It is important that the flags be returned as they are needed for other games each weekend.

Game ball: the home team is responsible for providing a properly inflated game ball acceptable to the referee. There will be a bin with new inflated Bader and GRSC Balls available, both size 4 (Div 4) and size 5 (Div 2 & 3). Please try to ration the game balls (particularly the more expensive Baders) by keeping them separate from practice balls in order to make it through the season on just a couple.

There will be a hand air pump available; please leave / return that to the bin.

Pinnies: when there is a team jersey color conflict (think Allendale and Fair Lawn) it is the HOME team that must supply and don pinnies. There is a bin of bagged pinnies marked "Game 12+" with enough for a full team. Please return these to the bin after each use.

There are also bagged pinnies marked "8" that can be used by teams for intra team practices and scrimmages. Feel free to take these and return at the end of the season.

First Aid Kits: Each team should already have a stocked kit, let me know if you do not. There are bins available with latex gloves, water for rinsing cuts & abrasions, gauze, bandages, tape, antibiotic ointment, ace bandages and 2 sizes of cold compresses. Feel free to take whatever you need to keep your kit stocked.

Practice balls: Each team should already have a bag of 9-10 practice balls. Please let me know if you need additional balls or a bag.

Good luck with your season!
